Skills

- Frontend:** HTML, CSS, JavaScript
- Languages:** C, Java, Python, JavaScript
- Database:** SQL (basic Queries, Joins)
- Tools & Plateforms:** Git, GitHub, VS Code

Interests

- Exploring Emerging Technology
- Problem Solving
- Creativity
- Quick Learner

Languages

- Hindi
- English

About Me

Undergraduate in Computer Science with a lot of drive and strong skills in Data Structures, Algorithms, and Web Development. I love building scalable solutions and solving real-world problems. Right now, I'm getting ready for software development jobs.

Education

- B.Tech in Computer Science and Engineering**
RR Institute Of Modern Technology 2023 - Present
72 %
- Intermediate (UP Board)** 2023
55%
- High School (UP Board)** 2021
69.55 %

Projects

- DIGITAL CALCULATOR**
 - Tech:** HTML, CSS and JavaScript
 - Developed a digital calculator to execute standard arithmetic operations smoothly.
 - Designed a clean, intuitive user interface with robust input validation.
- SMART EXPENSE TRACKER**
 - Tech:** HTML, CSS and JavaScript
 - Built a personal finance application allowing users to log daily expenses, categorize spending, and track remaining budgets.
 - Implemented data storage functionality to securely save and retrieve transaction history across sessions.
 - Created features for dynamic calculations to automatically update total balances and display real-time financial summaries.
